It records **500 unique orders** and **1,971 units**, generating **■15,107,673** sales and **■3,012,023** profit. Overall profit margin is **19.9%**, with average sales per unique order of **■30,215**.

2. Key Performance Insights

• **Region:** South leads with ■4,241,202 (28.1% of sales); West is lowest at ■3,327,454.

• **Product:** Laptops is the top product at ■7,334,600 (48.5% of sales).

• **Category:** Technology leads at ■10,118,815 (67.0% of sales).

• **Monthly trend:** 2025-10 is the strongest month at ■2,076,106.

• **Profit watch:** 0 product(s) and 0 region(s) have negative aggregate profit; review pricing, discounting and costs.

3. Sales Mix Snapshot

Top regions	Sales	Top products	Sales
South	■4,241,202	Laptops	■7,334,600
East	■4,001,032	Printers	■2,356,975
North	■3,537,985	Writing Desks	■2,355,600

4. Business Recommendations

• Study what is driving South's performance and build a targeted growth plan for West based on demand, assortment and conversion.

• Maintain availability of the leading product (Laptops); review weaker products for pricing, visibility and customer demand.

• Monitor profit margin with sales each month; investigate negative-profit products or regions before increasing promotions.

• Use dashboard filters for month, region and category; review discount levels to ensure revenue growth remains profitable.

5. Data Notes

Source: uploaded practice workbook, sheet 'Sales_Data'. 0 row(s) had at least one missing required field and were excluded from KPI/group analysis; 0 repeated Order_ID row(s) remain in valid records. This is a practice dataset, not verified company financial reporting. Recommendations are directional and should be validated against operational context.
